Commercial or Business Property Leases

Business leases for shops, factories and offices need to be right as both the landlord and the business owner have an investment in the property. It is important to get the right lease in place from the start. We have acted on behalf of both landlords and business owners to ensure that the lease does what it can to protect their financial investment. Problems can arise and these are generally over rents, repairs and the right to renew the lease at the end of the term. It is of vital importance to both the tenants, who have a business to run, and to the landlords, who have to finance their investment, that these problems are avoided where possible or dealt with in a professional and efficient manner.
